# WELCOME TO IPRS

If you are a music composer, songwriter or publisher, we invite you to join our Society of 9000+ talented music creators and publishers from the music industry

## Our Role

'Music is the soundtrack to our lives'. Music has emotional and economic value, and royalties are the lifelong earnings of music creators. At IPRS, it's our primary task to ensure that strong copyright laws are in place, and the publishers and creators of music reap the benefits of their hard work and creativity.

---

## Our Aim

At the heart of a musical work are the creators - the songwriters and the composers. IPRS is excited to create right value for songwriters, composers, and publishers whenever their work gets played across platforms. We aim to raise awareness on why 'fair trade of music' is vital and how it will help the original creators of music and the industry.

## Why is it important to join IPRS?

IPRS represents creators and their right to be compensated for use of their creation in commercial ventures. As per the Copyright Law either a registered copyright society like IPRS or only the owners of rights/creators can license their work. Thus music creators can also license their own work however in practice it would be daunting for those needing permission to exploit copyright music commercially to search for, approach and negotiate with each individual owner of the copyright in every piece of music on each occasion anywhere in the world. And of course it would be impossible for most copyright-owners to deal adequately with such applications and/or keep a track of all the venues and platforms where the music is being exploited. Hence CMOs like IPRS provide a one-window license and administration system in respect of copyrighted works.
